Project Management

There will be occasions when you are looking to facilitate a particular workflow not currently supported by learning technology central services. Sometimes, workarounds need to be found. However, there may be occasions when, working with our colleagues in Information Services, we can build something which does achieve the desired aim.

In my time as learning technologist for Edinburgh College of Art, I worked with IS Apps colleagues to build a building block for Learn which vastly improved the experience of students accessing learning outcome level grades and feedback via Learn. You can read about the project [here](#).

If you have an idea as to how you can improve current workflows — for academic colleagues, support colleagues, or students — please get in touch to discuss further.
