Drupal - Course Structures

Introduction

When creating a course in OpenCourseWare (powered by Drupal) for the first time, the ILTS team can provide a starting course template in Drupal either based 1) on the course structure and content from Learn; OR 2) as a blank template with an agreed structure.

Course Structures

- A) Structured by <u>activity</u> (e.g. lectures, tutorials, readings, etc.):
- ARO and EPL

Navigation

ARO: Course Materials
ARO: Hardware Labs
ARO: Lectures
ARO: Tutorials
ARO: Guest Lectures
ARO: Software Labs
ARO: Assessment
ARO: Course Contacts

ARO
Navigation
Menu, in
Drupal
(public view)

- B) Structured by <u>week</u> (e.g. week 1, week 2, week 3, etc):
- CDI1; IRR; and SDM

Navigation CDI1: Course Materials CDI1: Week 1 CDI1: Week 2 CDI1: Week 3 CDI1: Week 4 CDI1: Week 5 CDI1: Week 6 CDI1: Week 7 CDI1: Week 8 CDI1: Week 9 CDI1: Tutorials CDI1: Assessment CDI1: Course Contacts

Drupal (public
view)

- C) Structured by <u>schedule</u> (e.g. a schedule table with links to slides, video, handouts, etc):
- CT; EXC; and IQC

Schedule				
Week	Date	Topic	Resource	
1	15-Jan- 2024	Introduction	(2) ct_lecture_1introduction.pdf (2) ct_lecture_2the_view_from_30 000_leet.pdf	
1	18-Jan- 2024	Lexical Analysis	(2) ct_lecture_3lexical_analysis cf	
2	22-Jan- 2024	Guest Lecture by Lionel Pameaux	(i) ct_guest_lecture_1deforestation.pdf	
2	25-Jan- 2024	Automatic Lexer Generation	ct_lecture_4automatic_lexer_eneration.pdf	

CT Schedule in Drupal

D) Courses with a <u>mixed structure</u> (e.g. by schedule, activities and weeks):

• ANLP; CGGS; IQPS (aka QPS-11); and USEC

Further Information

When creating the course in Drupal, ILTS will provide support and guidance for you to choose a suitable structure for your course. This agreed structure will then make it easier for you to build your content and populate your course in time for Welcome Week.

If you'd like to discuss the options and contact ILTS then please visit the <u>support page</u>. We look forward to working with you.
