

Learn

Accessing Learn Ultra

You can access Learn via [MyEd](#), but the quickest (and easiest) way to access Learn is to go direct to <https://www.learn.ed.ac.uk>.

Login to EASE (if you're not already) and you'll be taken to the Learn homepage. The page defaults to 'Courses' where you will find a list of courses on which you are enrolled, along with further help documentation.

Course Organisers and Course Secretaries are automatically enrolled on their corresponding Learn course(s) as instructors. Students are automatically fed from EUCLID. All Informatics Teaching Support Providers will automatically be enrolled on Learn once their contract for the course is confirmed. If you require to be manually enrolled on a course (for example, as an external examiner) please get in touch with the Course Organiser or Course Secretary in the first instance.

Please see our blog post for an overview of using Learn Ultra:
