

Support

We hope can find the answer to your query on one of the pages on our site. Below are a couple other sources of information and support that you may find helpful.

UoE Information Services pages

The University's Information Services team maintain help pages for all of the centrally-supported learning technologies, e.g. Learn, Zoom, Turnitin, Media Hopper. We have linked out to a number of relevant resources on their pages from this site, but we recommend that you have a look over all of their resources on the [Learning and Teaching Technologies](#) site for further information.

LinkedIn Learning (upgraded from Lynda.com)

[LinkedIn Learning](#), the University's online learning service, has some good video resources on Blackboard Learn, Drupal, MS Teams, Collaborate and teaching online. Don't be put off by the length of the courses as they are fully searchable. LinkedIn Learning is an upgrade to Lynda.com which launched in 2018 at the University. All staff and students at the University of Edinburgh have an entitlement to a LinkedIn Learning account.
