Craft Lesson 4 / Climate Coalition Heart Badge

MATERIALS

Heart template
Banner template
Upcycled fabric (10cm²)
Felt (10cm²) x 2 Badge pin
Embroidery thread Pen
Embroidery needle

Instructions:

- 1: Using your templates, cut 1 x heart shape out of your upcycled fabric, and 1x banner shape plus 1x heart shape out of your felt.
- 2: In biro or a disappearing fabric pen write what you love about the world on your banner. Cut a length of embroidery thread the length of your arm and back-stitch over the writing. You can use all 6 strands of the embroidery thread, there's no need to separate it.
- 3: Stitch your banner to your fabric heart using a running stitch or back-stitch.
- 4: Stitch the badge pin securely on to your felt heart
- 5: Using blanket or whip-stitch, sew both hearts together so that both banner and badge back are facing outwards.
- 6: Wear your heart on your sleeve with pride! When asked about the reasons behind wearing it, talk lovingly about the world we share and how we can all be part of the solution to global warming.
