Craft Lesson 3 / Collage Jewelry

MATERIALS

Scissors
Glue
A stapler
Cardboard
Old magazines, photos or newspapers

1.

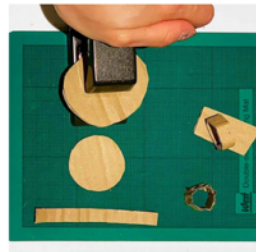

Cut some images from magazines, newspapers or photos.

2.

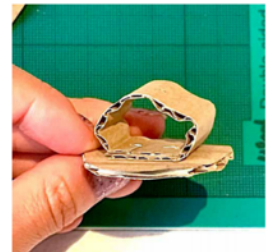

Cut strips of cardboard long enough to wrap around your fingers with 2cm extra, and some shapes for the rings.

3.

Curl the cardboard strip into a circle and staple it in place with the other shape. This will be the base of the ring.

4.

Play around with the images you have cut out and glue them to the base of the rings.

5.

How many rings can you make? Can you make any other pieces of collage jewellery?
