

Artist

Role Description: You are an 'artist'.

During Step 2, feel free to voice all your ideas and boldly 'spin' others – there's no need to base your comments entirely on factual information about the artwork!! Should you worry about saying something incorrect, rest assured...

Because your sole task is to defend your work and convince others of its excellence! Remember, this is the stage where you champion your life's work!

- Step1: [Drawing Cards]-[A brief overview of your work is sufficient; no prior knowledge is required: your creation, your interpretation]
- Step 2: Respond to questions posed by the curator and critics.

Guidance

Quickly observe your exhibition and works—what colours? What mood? What theme?

Attempt to answer the following questions:

What is the theme of the work?

What do you wish the audience to see?

Is the work easily understood?

...

- Step3: Compose exhibition labels (within 80 words).
