

Meta-ethnography
Reporting Guidance

FREE WEBINAR

Monday 22nd May 2017 11am-12MD (UK time)

Introducing the New Meta-ethnography Reporting Guidance: What it is & How to use it.

This online session introduces the new meta-ethnography reporting guidance produced by the 2 year NIHR funded eMERGE project. The session provides an overview of why this reporting guidance is needed, what format it takes and how to use it.

Open to all this free seminar is especially useful for those conducting, reviewing or supervising meta-ethnographies and/or using meta-ethnography findings e.g. journal editors, guideline developers, health technology assessors, representatives of patient groups.
