Please join us for a reflective discussion about methodologies with children and families.

- What methodologies, including ‘creative’ methodologies, are you using in the current context (with children, adults, or both)? (Teams may decide to choose one or more examples.)
- What (if anything) do you consider to be creative about these methodologies?
- How do you adapt these tools in your cultural contexts?
- If you have used these methodologies before, what was your experience? E.g., what were the challenges, opportunities, populations...? (For others to consider transferability into their own contexts.)
