WOMEN, YOUNG CHILDREN AND COVID19:
Stories from Brazil, Eswatini, Palestine and South Africa

Online event

The recent COVID-19 global health pandemic has significantly impacted on communities around the world. This webinar shares learning from our multi-country project UKRI GCRF "Safe, Inclusive Participative Pedagogy: Improving Early Childhood Education in Fragile Contexts" on how women and children in communities in Brazil, Eswatini, Palestine and South Africa have experienced the effects of the pandemic disproportionately due to historical marginalisation based on politics, poverty, racism and colonialism.

Organised by: Safe, Inclusive Participative Pedagogy (SIPP): Improving Early Childhood Education

Primary Investigator: Professor Kay Tisdall

The support of UK Research and Innovation (UKRI), and the Economic and Social Research Council (UK) is gratefully acknowledged.
