

Genderfluid Awareness Week

This week we celebrate Genderfluid Awareness Week. This began on Twitter in 2021 with a post by @LGBTQcontent and is now celebrated annually between 17th and 24th October.

Genderfluidity is a gender identity that is not fixed and can shift or fluctuate. Genderfluid people may shift between masculine and feminine, be a combination of both, be completely genderless or fluctuate. Genderfluidity is generally considered to come under the Trans and Non-binary umbrella.

This week raises awareness of Genderfluidity and is an opportunity to showcase Gender-Fluid culture and amplify Gender-Fluid voices.
